Fibrefill  
Clusters

Down-like Comfort

'Down-like comfort' can be achieved with minute fluffy balls of Recron® Fibrefill Cluster to give you adjustable and lasting comfort.

### Cluster Comfort

Recron® Fibrefill Cluster are minute fibre balls made with special technology from a unique type of Recron® hollow fibre. Millions of these clusters are filled in pillows to give lasting comfort and warmth.

### Retains Shape

The unique thing about Recron® Fibrefill Cluster is that they adapt to the shape of the body, but spring back to original shape immediately after. Hence, Recron® Fibrefill Cluster pillows stay in shape for a long time.

### Same Somfort. Less price

Recron® Fibrefill Cluster will provide the same level of soft, luxurious comfort as expensive down feathers, but at a much lesser price.

### Superior Loft with Lesser Filling

The special technology used in producing Recron® Fibrefill Cluster ensures fluffy and bulky fibre balls, giving far higher loft than regular filling fibres, even with less fill quantity.

### Odourless. Non-Allergic

Unlike down, Recron® Fibrefill Cluster are odour and allergen free, making them completely safe for use.

### End Uses

Pillows, cushions, soft toys, furniture (back cushioning), etc.
